

## Dialup setup: Windows 7

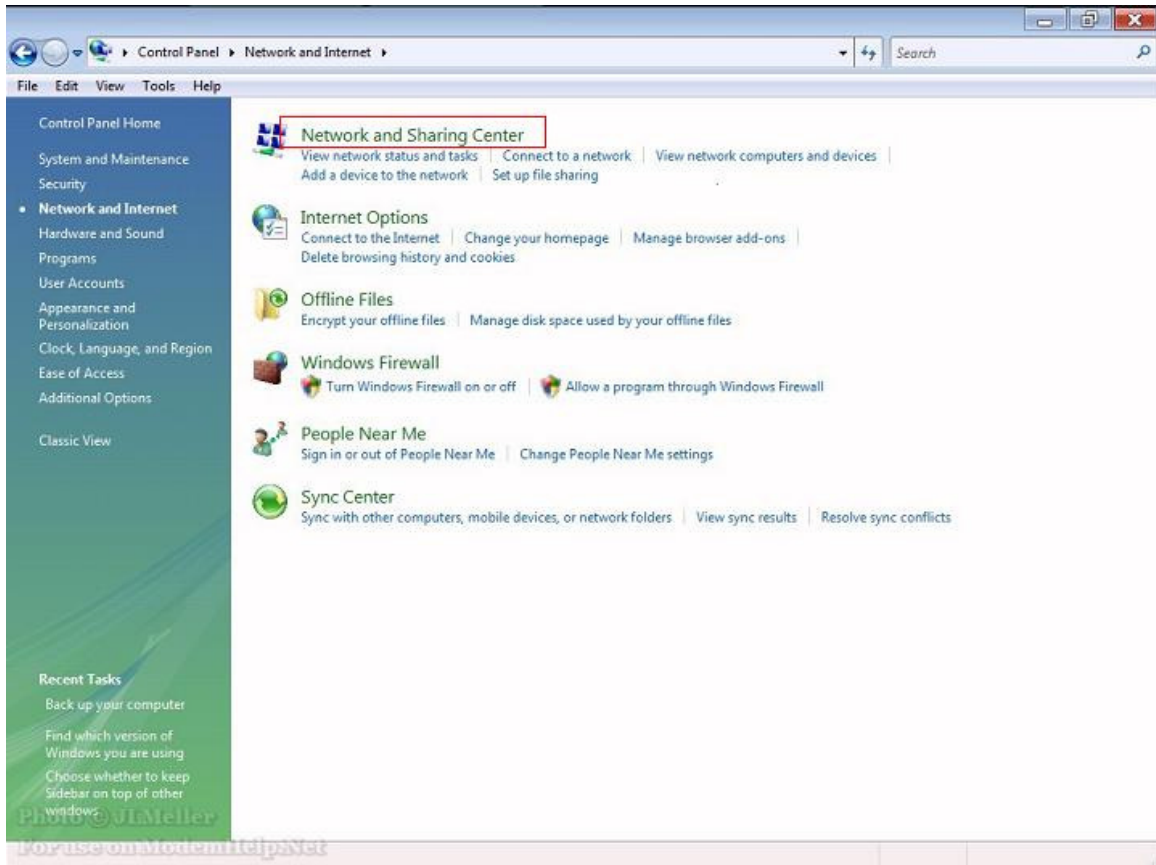

1. Click **Start – Control Panel**

## 2. Click on **Network and Internet**

3. Click on **Network and Sharing Center** once and click **Set up a new connection or network**.

4. Enter **0198307006**, your **Netbay account username** and **Password** as shown below. Rename **Dialup Connection** to **Netbay Internet**.

**Note:** Do not include @netbay.com.au at the end of your username.

Click **Connect** when done.

Set up a dial-up connection

Type the information from your Internet service provider (ISP)

Dial-up phone number: 0198307006 [Dialing Rules](#)

User name: username

Password: ••••••••  
 Show characters  
 Remember this password

Connection name: Dialup Connection

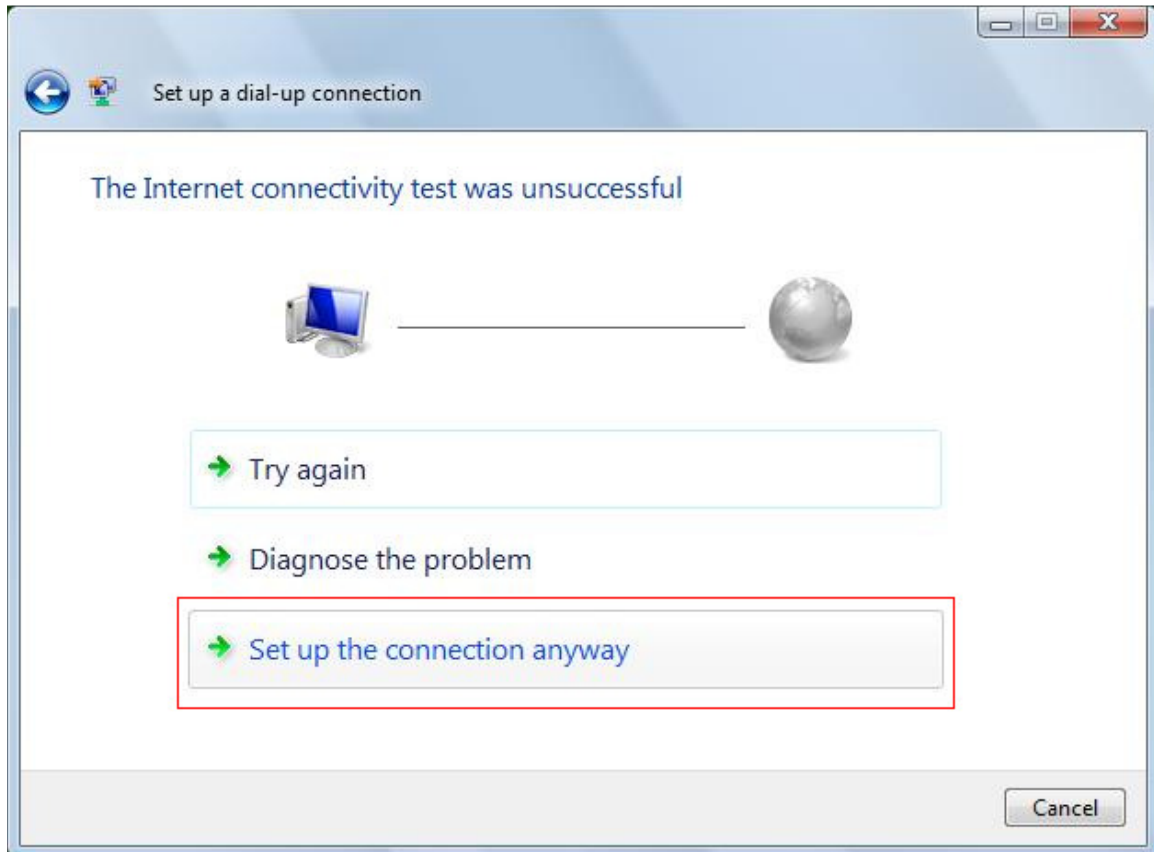

Allow other people to use this connection  
This option allows anyone with access to this computer to use this connection.

[I don't have an ISP](#)

Connect Cancel

5. If you are not connected your phone cable to the modem, a popup box will come up saying “The Internet connectivity test is unsuccessful”, then Click on **Setup the connection anyway**.

**Note:** If you do not click on **Setup the connection anyway**, the connection setting WILL NOT save on your computer.

6. Click **Close**
